

Solar System—Lesson Seven

Use of Instruments to Explore the Moon and the Planets

Standard III: Students will understand the relationship and attributes of objects in the solar system.

Objective 2: Describe the use of technology to observe objects in the solar system and relate this to science's understanding of the solar system.

Indicator a: Describe the use of instruments to observe and explore the moon and planets.

Directions:

1. Do the Lesson Plan: TRB Investigation Three—Following in Galileo's Footsteps (10.2.20)
2. Do the lesson plan: Relationships and Attributes of Objects in the Solar System I
3. Do the lesson plan: Relationships and Attributes of Objects in the Solar System II
