

Miles and Percentage Distance from the Sun

Mercury	Venus	Earth	Mars
35,980,000	67,230,000	92,969,000	141,000,000
1% of the distance	2% of the distance	2.5% of the distance	4% of the distance

Jupiter	Saturn	Uranus	Neptune	Pluto
483,600,000	888,200,000	1,786,400,000	2,798,800,000	3,666,200,000
13 % of the distance	24% of the distance	49% of the distance	76% the distance	100% of the distance

This is How It Works Out

Uranus is about halfway between the sun and Pluto.

Neptune is about halfway between Uranus and Pluto

Saturn is about halfway between Uranus and the sun.

Jupiter is about halfway between Saturn and the sun.

Mars is about one-third of the way between Jupiter and the sun.

Earth is about two-thirds of the way between Mars and the sun.

Venus is about three-fourths of the way between Earth and the sun.

Mercury is about half the way between Venus and the sun.
