

Parent Consent Form to Use Children Under 18
As Participants in a STEM Fair Project

Date:

Dear Parents,

For my school STEM fair project this year I am using children under 18 and I would like to use your child as a participant. Therefore, I need your permission to do so. I am not doing anything or using anything that would be harmful to people. I have gotten permission, by signature, to do my project using people from my science teacher and one of the following people: a psychologist, medical doctor, or registered nurse.

Here is what I am doing for my project and how I am using people.

If what I am doing is all right, please sign below that I can use your child in my STEM fair project and date it. Please return it to me.

Thank you,

(Signature of student doing the STEM fair project)

I give my permission to have my child _____
(Name of child participating in STEM fair project)

to participate in _____ STEM fair project.
(Name of student doing STEM fair project)
