

Characteristics of Rocks

<p>1 Igneous White Granite</p> <p>multi-colored—white, black, clear parts, bumpy, sparkles, large crystals, very hard, rough surface, speckled with black all over</p>	<p>2 Igneous Pink Granite</p> <p>multi-colored—pink, black, clear parts, bumpy, sparkles, large crystals, very hard, rough surface, speckled with black all over</p>	<p>3 Igneous Basalt</p> <p>gray, bumpy, rough, dull, some sparkles, small crystals, hard, jagged surface, holey, rough</p>	<p>4 Igneous Obsidian</p> <p>black, smooth, looks like broken glass, sharp, glassy, very hard, looks like thick-broken glass, light will shine through</p>
<p>5 Igneous Scoria</p> <p>dark red, rough, abrasive, dull, very few sparkles, small crystals, very soft, holey, light in weight</p>	<p>6 Igneous Pumice</p> <p>brown or gray, rough and abrasive, dull, no crystals, dust when scraped, very soft, bumpy, light weight, holey</p>	<p>7 Sedimentary Sandstone</p> <p>pink or white, sandy, gritty, small sparkles, dull with some sparkles, medium sized sparkles, soft, layers, jagged surface</p>	<p>8 Sedimentary Shale</p> <p>gray, bumpy, dull, very few sparkles, tiny crystals, soft, some layers seen, smooth and wavy</p>
<p>9 Sedimentary Conglomerate</p> <p>grayish-brown, bumpy surface, dull, few sparkles, soft, small crystals, jagged edges, small rocks and large rocks, rocks different colors</p>	<p>10 Sedimentary Limestone</p> <p>brownish-gray, bumpy, some sparkles, hard, white edges, jagged surface, sparkles of different shapes</p>	<p>11 Metamorphic Quartzite</p> <p>pink, pinkish white or white, bumpy, sparkles, medium crystals, rough, crack, tones of different colors</p>	<p>12 Metamorphic Slate</p> <p>gray, smooth, few sparkles, little shiny, dust when scraped, breaks in layers, flat, can see the layers well</p>
<p>13 Metamorphic Schist</p> <p>silver, bumpy, shiny, sparkles, large crystals, very soft, breaks easily in layers, glossy</p>	<p>14 Metamorphic Marble</p> <p>white, very bumpy, many bright sparkles, large crystals, soft, jagged surface</p>	<p>15 Metamorphic Gneiss</p> <p>multi-colored--pink, white, black stripes; many sparkles, bumpy surface, medium crystals, hard</p>	<p>16 Metamorphic Metaconglomerate</p> <p>brownish-white, bumpy, shiny, sparkles, large crystals, very hard, rough, compacted rocks, small and large rocks, rocks are shiny</p>
